

DIR/Floortime Model of Intervention

Developmental, Individual differences, Relationship based Model: Integrating the neurological and emotional development of the child.
The Action is in the Interaction!

INTRODUCTORY COURSE: Monday 16th & Tuesday 17th May 2011: Parents & Professionals
INTRODUCTORY COURSE: Monday 16th, Tuesday 17th & Wednesday 18th, May 2011: Professionals
Day 3: EXTENDED CLINICAL WORKSHOP: 18th May 2011: Past Participants may apply.

Presented by:

MARI CAULFIELD Speech & Language Therapist DIR Cert. International Faculty ICDL
KATHY WALMSLEY Occupational Therapist DIR Cert. International Faculty ICDL

Venue: Galway Bay Hotel, Galway, Ireland.

COURSE DESCRIPTION

The DIR model was developed by Dr. Stanley Greenspan MD and Dr. Serena Wieder as a framework to assist parents, and professionals in constructing a comprehensive intervention program that focuses on improving the child's functioning in all the developmental capacities where there are challenges, and, at the same time, promote healthy foundations for overall social, emotional and intellectual functioning. This introductory training will focus on the use of DIR/Floortime model with children with communication and learning difficulties, regulatory disorders, and children with behaviours that place them on the autistic spectrum.

DIR uses emotional and motivating experienced-based learning to improve social skills, language, independence, and to support higher level thinking. Intervention is offered within the context of developmentally designed play and learning situations. Therapeutically guided interaction with children is the means of moving children up the development ladder.

This course will highlight the *interdisciplinary* nature of this model. Video case examples will be used extensively and will include and integrate working with children in a variety of environments including the clinic, home and group educational settings. This will include progress demonstrated by children made over a number of years. There will be a focus on supporting and coaching parents as an important part of the model.

The science that supports the theory from the fields of child development, neuroscience and development models will be outlined.

Programme Objectives

Participants will be able to:

1. Have an introductory understanding of the DIR model as an interdisciplinary approach that integrates the emotional and neurobiological functioning of the child.
2. Describe the relationship between affect, sensory processing, and communication, and understand Individual differences as part of the model.
3. Understand the importance of a relationship-based approach.
4. Identify and describe the six core functional emotional developmental stages and related capacities.
5. Develop an introductory understanding of the FEAS (Functional Emotional Assessment Scale) as an assessment tool that can be used to build a development profile for the child, and guide treatment / parent coaching.
6. Describe and begin to use 'DIR/Floortime' model within the clinic, home and school settings

WHO SHOULD ATTEND?

This training is designed for Speech & Language Therapists, Occupational Therapists, Health and Educational professionals, Mental Health professionals, Medical Professionals, Nurses, Play Therapists, Psychologists, Teachers and special needs Assistants are welcome.

ABOUT THE SPEAKERS

Mari Caulfield and **Kathy Walmsley** both hold roles as DIR International Faculty with ICDL and support the annual Training Institute in the USA and are leading DIR professionals in their home countries of Ireland and Australia.

Mari Caulfield has worked in Ireland for 30 years as a Speech and Language Therapist in a variety of clinical and management roles which include Health Boards, Child Education Centres, Special Schools and Autism specific classes. She holds a Faculty position with the Interdisciplinary Council for Learning and Developmental Disorders and is DIR certified and travels between Ireland and the U.S.A. annually to support her continued professional development. Mari has undertaken extensive training over the years including Montessori, Integrated Psychotherapy, PROMPT, Sensory Integration, Intensive Interaction and Hanen approach. She lives and works in County Galway in Ireland where she has established a Speech and Language Therapy Practice. Mari is the founder of "Look into My Eyes" an innovative parent programme, a 'parents teaching parents' training initiative held annually in the West of Ireland. She is a member of Irish Association of Speech & Language Therapists, and Royal College of Speech and Language Therapists. www.maricaulfield.com

Kathy Walmsley has worked as an Occupational Therapist in Australia, as well as in the UK and in the USA over the past 27 years, in a variety of community based settings, including neurology, vocational rehabilitation, and mental health. She holds a Faculty position with the Interdisciplinary Council for Learning and Developmental Disorders, and is DIR® certified. Over the past twelve years she has specialised in paediatrics with a special interest in working with children with complex neurodevelopment and sensory processing challenges. She has post graduate certificate in counselling and has attended numerous trainings and workshops in her field of occupational therapy. Kathy is a founder of Sensory Connections OTS, a private OT practice in Perth, Western Australia.

Mari and Kathy share a common passion for their work with children and families. They receive close mentorship with Senior DIR Faculty in the USA and been awarded a 2009 Faculty award in recognition of research and ongoing contribution to DIR education. They bring a wealth of practical experience as well as clinical knowledge and expertise to their teaching style and both have international training experience in the field of DIR. Participants will leave this training with specific strategies and tools to support their clinics, work or home settings.

RECOMMENDED PRE-READING

We recommend that to obtain the most from this training participants read:

SCHEDULE

Day 2 9.00 AM - 5.00 PM

Day 1 9.00 AM - 5.00 PM

Introductions

What is DIR? What is Floor Time™ ?

D – Six Primary Social Emotional Developmental Capacities essential for growth

Level 1 Shared attention and regulation Level 2 Engagement and Intimacy Level 3 Two way purposeful communication Level 4 Complex Problem-Solving Level 5 Symbolic ideation Level 6 emotional and Logical Reasoning

I - Individual Differences – Including Sensory Processing, sensory modulation, motor planning and sequencing; visual, auditory processing and language.

R – Relationships and the central role of affect

Assessment & Intervention: DIR Perspectives-

Individual Neurological Differences: Sensory processing including sensory modulation, development and learning, Motor planning and sequencing; visual and auditory processing within contexts of Sensory, Affective/Emotional Regulation, Engagement & Purposeful Communication, Affect to Intent, Shared Problem Solving, Complex Communication, Emotional Thinking & Logical Reasoning,

- ▶ Communication, Speech and Language: Developmental Language Perspective: Shared Attention, Affective Engagement, Reciprocity, Shared Intentions, Shared forms and meanings .
- ▶ The relationship between affect, sensory processing and communication
- ▶ Case Based Analysis and Problem Solving from an interdisciplinary perspective: Workshop.
- ▶ Key Principles and Strategies of Floortime
- ▶ Social groups & Peer Play; Education and DIR.

Day 3 Clinical Workshop 9.00 - 5.00pm Assessment and Intervention from a developmental perspective – Extended Practical Workshop

Assessment (Incl FEAS) and Case formulation with a Variety of Individual Profiles & caregiver patterns. Self Reflective opportunity for ways of integrating DIR approach & DIR Goal setting into current clinical practice.

Please note: DIR® is a registered trademark of the Interdisciplinary Council of Development and learning disorders (ICDL). This training is not a part of or presented by IC DL but is presented by TrainingWays which is affiliated with IC DL. It does provide interdisciplinary training that fulfils the requirement for entrance to DIR (B) level at the IC DL Institute training Program. Mari and Kathy also provide ongoing tutoring and mentoring support opportunities. For information about DIR institute levels please refer to www.icdl.com
